Profile Summary

Senior Front-End Developer with 8 years of experience in designing and developing user-centric, responsive, and high-performance web applications. Skilled in modern frameworks such as React.js, Next.js, and Angular 19, with a proven record of delivering seamless user experiences and visually engaging interfaces.

Proficient in HTML5, CSS3, JavaScript, TypeScript, and RESTful APIs, with strong knowledge of UI/UX principles and cross-browser compatibility. Experienced in leveraging Webpack, Git, and CI/CD pipelines to optimize workflows and ensure on-time project delivery.

Recognized for the ability to lead cross-functional teams, mentor junior developers, and collaborate effectively with designers and backend engineers to build scalable, maintainable, and future-ready systems.

Work Experience

Senior Front-End Developer | Kabi

Oct, 2024 – Present

- Collaborating with design and development teams to create user-friendly web interfaces.
- Translating design concepts into responsive and interactive web applications using HTML, CSS, and JavaScript.
- Ensuring cross-browser compatibility and optimizing web applications for various devices and screen sizes.
- Implementing and maintaining web accessibility standards to ensure inclusivity.
- Testing and debugging web applications, identifying and resolving issues promptly.
- Using version control systems to manage codebase and collaborate effectively.
- Staying updated with the latest Angular framework version and web development trends, tools, and best practices.

Front-End Developer | Aspire

Jul, 2019 – Oct, 2024

- Executing several web applications, implementing new UI designs in collaboration with the UX team and other developers, maintaining existing code, and diagnosing and fixing issues.
- Building and shaping the user experiences of our web applications.
- Developing and maintaining high-quality, user-friendly web applications using Angular, React, JavaScript, HTML5, and CSS3.
- Leading projects from conception to deployment, ensuring adherence to goals and quality standards, and executing end to end testing using playwright and typescript.
- Collaborating effectively with cross-functional teams, actively contributing ideas and taking the initiative to drive progress.
- Implementing responsive design and optimizing applications for maximum speed, scalability, and user engagement.
- Troubleshooting, identifying issues and bottlenecks, and providing efficient solutions.
- Maintaining a keen awareness of industry trends and emerging technologies.

Projects

- **UK Health Care** | Data Entry System – Oracle.
- **Recurly Signup Web** | Subscription and Billing Management Platform – JavaScript, Next JS, Recoil.
- **Weight Watchers Shop Web** | Health Products Trading Web Page - React, JavaScript Next JS.

Education

Bachelor's Degree in Compute Science

Applied Science University | 2014

Certificates

Oracle Certified Associate, Java SE 8 Programmer

Oracle | 2019

Meta Front End Developer | Corsera

Areas of Expertise

- Front End Development
- Back End Development
- End-to-End Testing
- Automation Testing
- Quality Assurance
- Responsive Web Design
- Task Planning

- Developed Reliance mobile application project using Cordova and JavaScript.
- Created, documented, and executed unit tests
- Debugged, corrected, and tested code and configuration fixes
- Designed and implemented a user-friendly interface application, leading to a 25% increase in user retention rates.
- Collaborated with cross-functional teams to develop a responsive e-commerce platform that increased sales by 20%.

- Executed Tabadul project using Java and JSF.
- Delivered robust, optimized software designs for systems while adhering to project targets, performance objectives, high quality, and cost minimization.
- Integrated modern frameworks like React.js, reducing development time by 25% while enhancing scalability and maintainability.
- Resolved critical UI bugs, improving platform usability and customer satisfaction scores by 15%.

- Detected and tracked bugs and defects in each designs program, application and website.
- Crafted test cases and scenarios based, tested, detected issues and provided creative solutions.
- Collaborated closely with the developers to maintain quality and accuracy.
- Achieved a 40% reduction in production defects by implementing rigorous automated and manual testing processes.
- Developed comprehensive test plans that increased defect detection rates by 30% during the QA cycle.
- Reduced software release times by 25% by optimizing regression testing processes and automating repetitive tasks.

Personal Project

- **FamilJ** – Home Organization Mobile Application | Team Member
- **ChatBuddy** | WebRTC – Instant Chatting Web Application with Video Chat | Scrum Master
- **Multiple projects using Angular version 13, and angular version 19**

Professional Skills

- Interpersonal Communication
- Creative Problem Solving
- Analytical Skills
- Critical Thinking
- Leadership
- Prioritization
- Negotiation
- High-level of Accuracy
- Achievement-driven
- Results-oriented
- Attention to Detail
- Team Establishment
- Presentation

Bootcamps

Full Stack Web Development
RBK | 2018

Full Stack Web Development
[mesbah.io](#) | 2018

Software Skills

Python | HTML5 | CSS3 | JavaScript (ES6+) |
TypeScript | React.js | Next.js | Angular 19 |
Node.js | React Native | Cordova | Tailwind CSS
Bootstrap | Material UI | RESTful APIs |
GraphQL | Jest | Playwright | Git | Webpack |
CI/CD | MongoDB | SQL | Docker

Voluntary Projects

King Hussein Cancer Foundation | 2016
